

## Pure Performance. No Gimmicks

### Raycatcher<sup>®</sup> Capturing Technology

The dome is designed to capture maximum sunlight with its crystal clear surface, Raycatcher dome is the optimum in light capturing technology.

### Miro-Silver<sup>®</sup> Tube

SolarBright<sup>®</sup> tube is manufactured to last for life, it has the highest reflectivity for an anodised surface with capability to deliver pure daylight colour. SolarBright<sup>®</sup> tube will perform consistently and is free of gimmicks and lamination.

### Auroramax<sup>®</sup> Diffusion Technology

SolarBright<sup>®</sup> triple lens diffuser technology is designed to allow the light to enter rooms and spreads the pure light evenly with no hot spots. Simply, more light & less heat.

Model	Potential Covering Area	Potential Length
ML250	18m	7m+
ML400	25m	10m+
ML400H	28m	12m+
ML550H	32m	15m+

## Cutting edge technology in daylighting

### Raycatcher<sup>®</sup> Dome

- Exclusively engineered & designed
- Captures maximum light possible during the daylight even some low angle light.
- Reduces some of midday light.
- Hail resistant shape
- Crystal clear surface for maximum performance

\*Image of light routes for illustration purposes only

### Seamless Flashing

- Leak-proof roof system
- Seamless injection moulded part
- Designed to suit most roof types
- Engineered with pitch for maximum performance

### Miro-Silver<sup>®</sup> Tube

- Mirror finished tube
- Durable Solid Aluminium - not laminated polymer
- Transmits pure white light
- Highest reflectivity at low sun-angle
- It will not yellow, crack or peel after prolonged UV Exposure
- 20 year warranty

### Optical Diffusion System

- Exclusive & modern design
- Unique triple layer diffuser kit
- Blocks harmful UV transmission
- Advanced Fresnel lens for optimum performance

## Performance, quality plus choice

### The choice is yours...

SolarBright daylighting systems give you exceptional performance plus a unique range of functional options.

### Diffusers

### Prismax<sup>®</sup>

Most widely used diffusion system in the lighting industry. Excellent efficiency in light transmission and glare reduction.

### Warm

New and modern diffuser with a matt satin surface which produces a warm and soft light.

### Aurora<sup>®</sup>

Transmitting and spreading light effectively in any room.

### Auroramax<sup>®</sup>

The new Fresnel micro-optic lens is engineered to transmit pure natural light evenly regardless of the sun angle. AUORAMAX<sup>®</sup> the ultimate diffusion lens.

### The Hybrid Diffuser

- Large square diffuser to bring in even more light
- Seamless stylish décor trim
- Multiple sealed lenses for optimum energy efficiency
- Mirror finished tube for maximum performance

Options:

Prismax<sup>®</sup> | Warm | Aurora<sup>®</sup> | Glazy<sup>®</sup>

## Add style & elegance

### Stylish Trims

### White

Our standard décor trim is the most acquired feature that blends with majority of ceilings.

### Glass Overlay

Add class to your diffuser with a glass look feature.

### Stainless Steel

Designed to match other Stainless Steel light fixtures on your ceiling.

### Glass Eclipse

Designed to add a touch of elegance with a glass look.

### Electric Light Inside Tube

Add electric light to your skylight for night use.

### Light Dimmer

With our new solar powered dimmer the daylight coming out of Maxlight can be controlled and adjusted with touch of a button of a remote control.

### Combo Skylight & Ventilation

The new combo add-on ventilation kit offers the convenience of skylight and ventilation in one. This modern and stylish feature is perfect for bathrooms, laundries and other rooms that require daylight and ventilation.
